

Louët's heddle helper was designed to help you split bundles of heddles and to keep your heddles organized.

Contents of the box

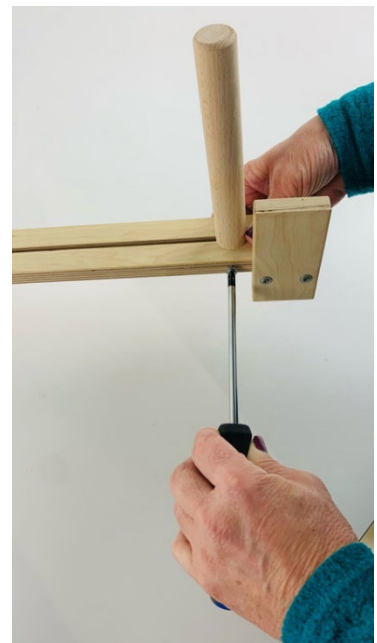

1. Main upright (HU0434)
2. Stabilizing block (HU0435)
3. Short dowel (HU0436)
4. Longer dowel (HU0447)
5. 2 x screws 4 x 35mm (BS0064)
6. 1 x screw 4 x 21mm (BS0029)
7. 1 x 6mm washer (BW0003)
8. 1 x 6mm wing nut (BN0018)
9. 1 x table clamp (KR0120)

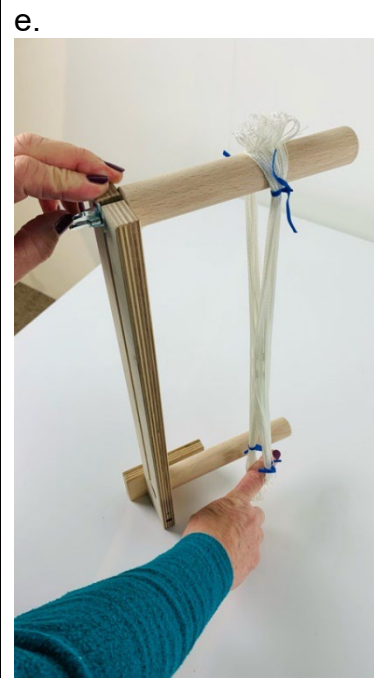

In the photo, the thread at dowel 3 is missing.

Assembly instructions

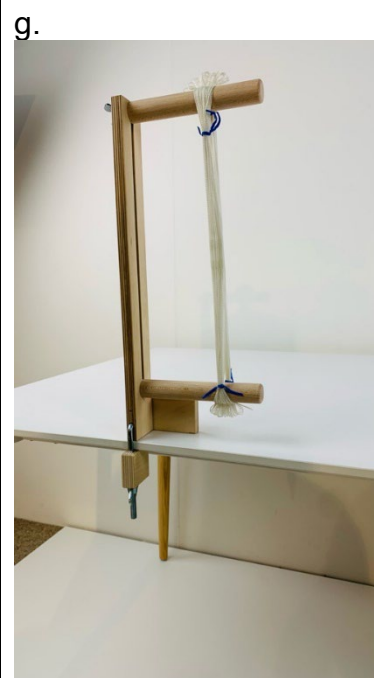

- a. Attach the stabilizing block with the two 4 x 35 mm screws. Use the pre-drilled holes in the upright.
- b. Take the longer dowel and connect it as shown in the image, in the round hole near the stabilizing block. Secure with the 4 x 21mm screw.

- c. Place the washer on the threaded end and secure with the wing nut. Do not turn the wing nut on too far.
- d. Slide the threaded end into the groove with the washer and wing nut on one side and the dowel on the other, as shown.
- e. Adjust the position of the top adjustable dowel to fit the size of your heddles.

- f. Attach the heddle helper to your table.
- g. The heddle helper stabilizing block can be attached on either side to make it adjustable for left handed or right handed operation.
